

## Environmental statement

CrystallLed™ luminaires do not include any environmentally harmful components, nor does the production process emit any harmful emissions. Eliminating hazardous substances is a key priority, and suppliers are continuously managed to ensure compliance with environmental standards.

The company carries out waste disposal according to guidelines issued by the authorities.

Ledlight Group continuously strive to be at the forefront of environmental practices, and was registered on GRIPs<sup>2</sup> ranking of innovative environmental companies in 2007.

Ledlight Group is in the process of considering ISO 14001 certification.

Shahzad Abid  
CEO
